TECHNICAL SKILLS

Languages: *Go, Python, Java, TypeScript/JavaScript, Swift, SQL*

Backend & Data: *REST APIs, JSON, PostgreSQL, FastAPI, Supabase, OpenAPI, relational data modeling*

Systems: *WebSockets, event-driven architecture, real-time integration, asynchronous processing, data structures, Docker, Linux, Git*

Web & Mobile: *Next.js, React, SwiftUI*

Practices: *API documentation, technical specifications, payload validation, integration debugging, automated checks*

EXPERIENCE

LunarLabs LLC — *Software Engineer & Co-Founder*

Jun 2024–Present

- Build and maintain backend and platform systems spanning REST/JSON APIs, SQL-backed services, deployment infrastructure, and real-time event workflows.
- Developed Lunar Deploy Agent, a Go deployment system with asynchronous workers, WebSocket event streaming, health reporting, deployment history, and OpenAPI documentation.
- Designed Launchpad, a Go control plane managing infrastructure nodes, projects, clients, and deployment lifecycles across distributed services.
- Implemented registration, heartbeat, deployment dispatch, logging, status callbacks, and API contracts while collaborating with frontend and systems engineers to validate and debug integrations.

LunaPal — *Lead Software Engineer & Founder*

Sep 2024–Present

- Architected a cross-platform application spanning SwiftUI iOS, Next.js web, FastAPI services, PostgreSQL/Supabase, and Azure infrastructure.
- Designed authenticated REST APIs, relational data models, Row Level Security, and privacy-conscious application data flows.
- Built a coordinator-based SwiftUI architecture for centralized navigation, application state, and modular feature development.

Marriott International — *Front Desk Agent*

Jul 2026–Present

- Support daily Marriott property operations across guest-facing systems and cross-department workflows, resolving time-sensitive issues while maintaining service continuity.

PROJECTS

SwiftUI Navigation Coordinator — *Swift, SwiftUI, NavigationStack*

Built and published an open-source coordinator architecture for complex navigation flows, with a technical article and architecture diagrams documenting implementation decisions and system behavior.

EDUCATION

Colorado Technical University — *B.S. Computer Science*
